Boys' Shirt Waist

Tomorrow we put on sale hundreds handsomest and most stylish shirt waists at 79c.

-which are the identical waists which are being sold about town for \$1.25 and \$1.50. They consist of the most desirable patterns in percales, in lawns and in batistes; they are all this season's creations; they all have detachable collars.

The values are important and extraordinary, because they are the best maker's productions and the new season's styles. There may be shirt waist sales at lower prices, but on investigation you will find that the garments are those left from last year's selling-the picked-over styles which but few people want.

We have filled an immense show window with them, and you can see the desirability of ours before you enter the store.

As the result of that immense purchase you are being offered the newest

wash skirts at about 1/2.

You will not pay full prices for the new washable skirts so long as you can buy them for nearly half! The purchase of hundreds of garments from a New York maker enables us to make these very

Two of the greatest sales of untrimmed hats of which you have ever known. Hundreds of the very newest shapes, in every color that is wanted. We ask that you please do not confound these hats with those which are being offered at 9c. and 10c. about town-and advertised as such "immense values." As we stated above, ours are this season's new shapes and desirable. A penny would be dear for old, undesirable hats which nobody wants.

We do not trim them free, but we sell you the trimmings for less than you can buy them elsewhere. Stores that trim hats free make up for it on the trimmings—a clever trick!

THE WORLD OF SOCIETY NAUSEOUS OR PLEASANT.

A Remedy Pleasing to the Palate of Hospitalities for Tomorrow's Bride and More Benefit Than a Nanscating One.

In former days a medicine was valued according to its nauscousness. Even now there are those who district a pleasant medicine. Yet our sense of taste is a guard and guide implanted in us to enable as to avoid that which would do us barm What the taste approves benefits the issly, what it rejects would oftentimes, if taken, impair the health, sometimes destroy the life.

The very qualities which the taste approves upbuild and fortify the body against the enslaughts of disease

This truth is wonderfully exemplified in the wider and wider recognition of Duffy's Pure Malt Whiskey as possessing the most wenderful medic inal and stimulating power of any agent that is known to the medical profession,

Duffy's Pure Mait Whiskey is as harmless milk, as pleasant to the taste as nectar, and as powerful in remedial and stimulating power as are all the agents of the whole pharmacopoels. This great truth is gradually becoming known the world over, and it is well for the human race that such is the case
